Flash-Card News/Flash-Card Mania Subscription Codes

Instructions

Your Flash-Card News/Flash-Card Mania rep will provide you with subscription codes that you can sell to your customers. Simply write in a subscription codes on the template on the following page in the box that says SUBSCRIPTION CODE.

Make sure you also include the **activate before** date and how many days the subscription is for (how many days after activation date before the subscription expires).

Also enter in the dollar value of the coupon. Your rep will provide this value for you. It is recommended that you sell your customers the coupon at a **discounted price** to ensure that they return to you to renew their subscription. Otherwise, they may just prefer to purchase future subscriptions online directly from us.

We recommend that you print out your list of subscription codes and cross each one off as you write it on the template. This will ensure that you don't duplicate any of the codes.

IMPORTANT! - Before sale, confirm for the customer that the subscription code is valid:

Go to www.flashcardmania.com (or have them go there)

Make sure you're NOT logged in (otherwise you spoil the code by activating it yourself).

Go to the subscribe page.

Enter in the code (or have them enter it). The system will confirm it's valid.

If you accidently spoil a code, simply provide your customer with another code.

Don't accidently select the **generate codes** page on the subscribe tab! This is a page we use to have retailers enter a password to **create** the subscription codes we provide for them to sell.

See below for templates you can use to provide retail customers with their subscription codes.

If you have any questions, please consult with your Flash-Card Mania representative or contact us at 403-246-5472 (9:00 – 11:00 AM MST).

There are black & white templates on the next page, if needed
